

CHANGE OF GRADE CONNECTOR

ABSTRACT OF THE DISCLOSURE

A change of grade connector which includes first and second connector members. Each of the connector members is configured to attach to an end of a conventional landscaping edging strip. A longitudinal centerline extends through each of the connector members. The connector includes a fastener which is configured to pivotally attach the connector members. The connector members can pivot with respect to one another along the fastener axis between a first position in which the longitudinal centerlines are aligned and a second position in which the longitudinal centerlines are out of alignment.
